**AMENDMENT**

Sir:

In response to the Official Action of August 30, 2002, please cancel all claims and replace with new claims as follows.

**IN THE CLAIMS:**

Sub A 25. A method of constructing (a building unit module) comprising forming plural rectangular frame members, positioning the frame members vertically in an aligned row with a first predetermined spacing between each adjacent pair of frame members, connecting multiple horizontal runners to the frame members with (the horizontal runners) parallel to each other and with a second predetermined spacing between each adjacent pair of runners to form a lattice framework, securing horizontal angle members to the internal corners of the lattice framework, and securing sheeting to the lattice framework via the runners as to form an enclosure.

2126. A method as claimed in claim 25, wherein said enclosure has four external corners additionally comprising securing horizontal angle members to the four external corners of the lattice framework.
